Health Corp has reported strong financial results for the second quarter of 2026, driven by continued growth across its healthcare services and digital care divisions.

Revenue increased by 14% compared to the same period last year, supported by higher patient engagement and expanded partnerships with regional healthcare providers. The company also reported improved operational efficiency, resulting in a 9% reduction in administrative costs.

As part of its ongoing investment strategy, Health Corp announced additional funding towards digital infrastructure and patient support services. The company stated that these investments are intended to improve long term service delivery and support future growth.

"Our focus remains on delivering reliable healthcare services while continuing to invest responsibly in innovation and operational improvements," said Sarah Mitchell, Chief Financial Officer at Health Corp.

Health Corp confirmed that its financial outlook for the remainder of 2026 remains positive, with expectations for continued steady growth across key business areas.
